Product Description

Product Description

Converts Spray Cans into Spray Reusable Accessory Aerosol Spray Paint Can Trigger Handle

This Spray Paint Can Trigger Handle relates to an accessory for use with aerosol cans, and is particularly concerned with a device by means of which an aerosol can can be actuated without the need to place a finger on the valve- actuating button.

Aerosol cans conventionally have a button which incorporates a spray nozzle and which is connected to a dispensing valve mechanism whereby depression of the button will cause the contents of the can to be emitted in the form of a spray. However, when spraying certain products, and also on occasions when the valve mechanism may become partially stuck the contents of the can can come into contact with the finger of the user of the can, which is clearly undesirable.

It is therefore an object of the present invention to provide a device by means of which the dispensing button can be actuated "remotely".

Broadly in accordance with the present product there is provided a device for use with an aerosol can, the device comprising a handle portion arranged to be gripped by the user, means to engage and grip a portion of the aerosol can, and trigger means which upon actuation is arranged to control movement of the dispensing valve mechanism of the can.

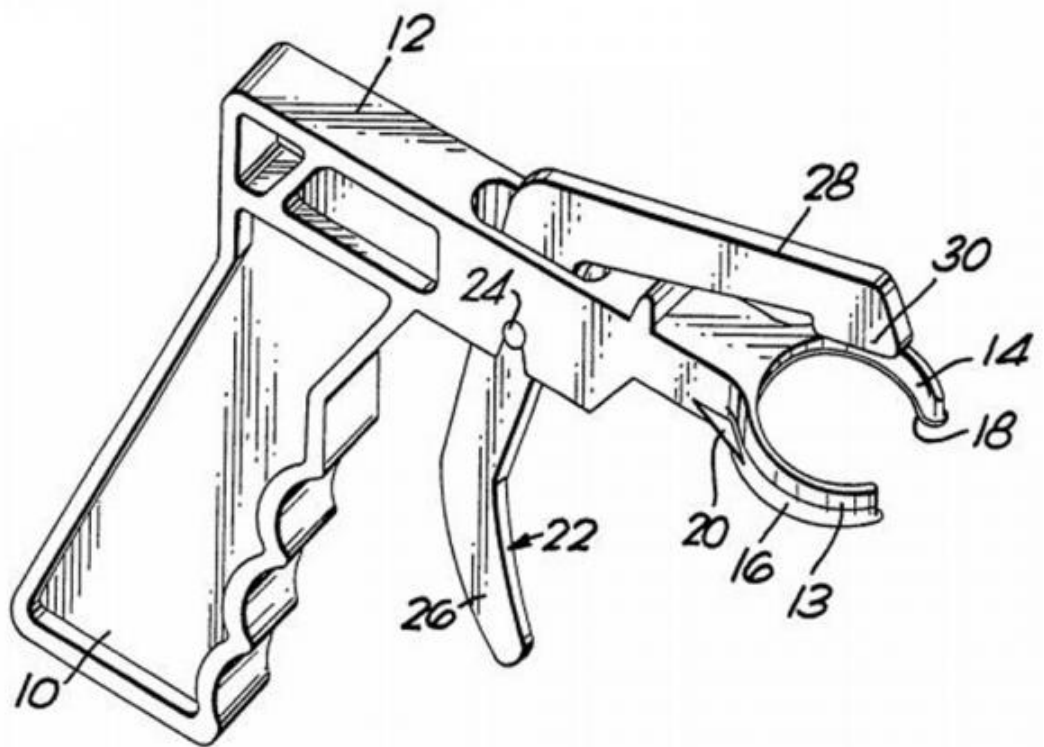

Preferably, the gripping means of the device comprises a bifurcated portion arranged to clip around an annular portion of the can, preferably around an annular flange positioned below the dispensing button. Preferably, the bifurcated portion comprises two arcuate jaws which together extend through more than 180°.

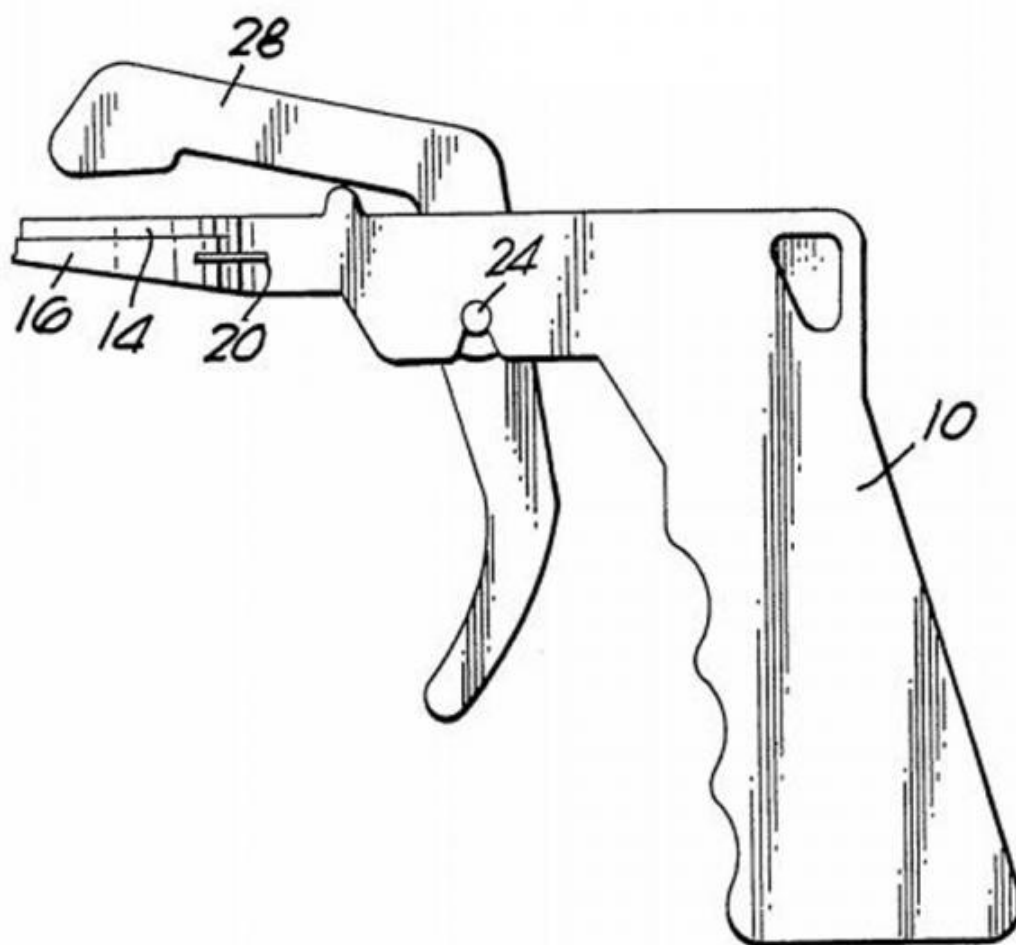

Customer Service

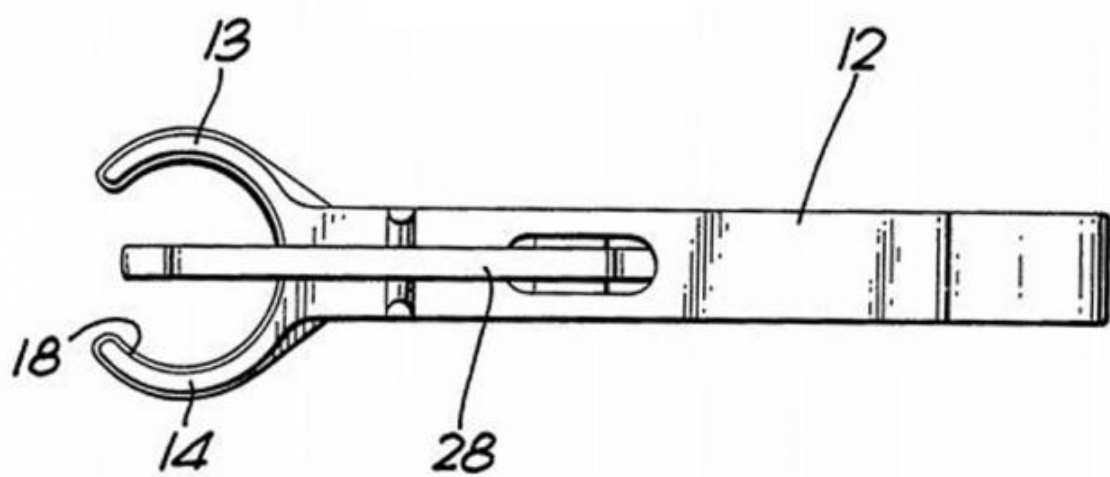

If you have any questions about the product or the order, just CONTACT US directly through the order, and we will give you a satisfactory solution within 1 working day.

FAQ

- Question(Q): What is the MOQ for each product?
- Answer(A): For retail, we can do any quantity for you and they will be sent by express. For wholesale, the MOQ usually is 500pcs. You can also mix different items and we can ship them to you by sea altogether. For details pls contact us by email or online chatting.
- Q: What is the lead time and shipping time?
- A: Goods usually take about 30 days to finish. It will take about 15 to 35 days on the sea from shipping port to destination port. For South Asia and Oceania, it usually takes about 15days. For other regions, it usually takes about 25 to 35 days. The shipping time is changing with the distance and the shipping company we choose.

· Q: Can the products be made with our logo or brand?

· A: Yes, of course we can make. We are OEM supplier for years and able to customize your logo and packaging, but you need to give us the authorization and design.

· Q: What can we do if we are interested in your products?

· A: Pls send us your precious inquiry on our website or talk directly to us by trade manager. Sometimes it will be more efficient if you talk with us online. We can know each other and the products you want more clearly by talking online.

· Q: How can we place the order?

· A: after we confirm everything necessary for the order,including detailed products you want,prices,payment terms, packing ways and other details, we will draft the contract. Usually we will send to you the PI(proforma invoice) for advance payment first. Then we will arrange the production. After the goods are ready we will contact you for shipping.

· Q: How do I know the products' quality and the packing ways are the ones we required?

· A: Each product will be tested before sending out. We will send you photos of the goods for you to confirm.

· Q: How do we make the payment?

· A: We usually accept the payment by T/T, west union and other payment ways. We will confirm this when we conclude the order.

Any questions, pls feel free to contact us. We will negotiate everything well for our mutual benefit.
